

Please take action. Stop Sinclair Corporation from misuse of the public airways. This corporation makes money from the public airways and now seeks to attempt to influence the Presidential election in November by pre-empting regular broadcasts with the Stolen Honor, an anti-Kerry documentary.

it is depressing to see that a single, for profit media corporation can misuse the public airways this way. it is a reflection of the detriment brought about by consolidation of media. instead of local control over local stories we are broadcast messages from corporate command central. It's very much like state controlled broadcast in former communist countries where program selection favored those in power.

This documentary doesn't reflect issues that matter, rather it's more of a distraction during this election year when media should be helping the public to wisely evaluate and make choices around real issues that matter - the state of health care, education, the judiciary, the war in Iraq.

Sinclair's actions show why we need to strengthen media ownership rules, not weaken them. They show why the license renewal process needs to involve more than a returned postcard. Thank you.
